## About This Game

A terrible curse has spread to our fair city. A curse that if left unchecked, will threaten us all. The nights have grown long, and with it, hordes of evil creatures come with it. Werewolves, demons, skeletons, ghouls, and they all want just one thing. To feast on our flesh and take over our souls.

But we will not stand for this! We will band together and root out this evil. Together we will unmask whoever is behind this, and put a stop to this menace.

## Gameplay

Direwolf is a multiplayer online intrigue game, where you will be matched with other players and put in small groups, where it is vital to your survival that you eliminate the evildoers among you.
