We are pleased to share the news of a new rank for this War Thunder update - Major General! The first step towards this rank has been achieved, as we have successfully completed the testing of this rank on the local server. So, we now want to test the new rank on all platforms: As a reminder, this is the only rank which is displayed on the profile page. For all other ranks, if you reach the rank limit, the rank will be updated after a time. Before the first official weekend, we'd like to invite you to "Winterfest 2016". It's our first in-game event and will last until the 16th of January 2016. To make sure you spend the whole event fully participating in the event, you will receive a special Winterfest title for this event! You can read more details on our Forum. To make the event more interesting for you, we are adding a few changes to War Thunder: All vehicles will now be controlled by the mouse All vehicles have a new boost which

enables them to move faster and use the new (and very exciting) Proximity Bomb and drop it at enemy vehicles and aircraft in a short time The action of spotting vehicles will be accelerated to a significant degree The world will be under constant air and ground bombardment The action during “Winterfest 2016” will be very intense, and those players who participate in the event will receive additional compensation for the account balance that was lost. At the end of the event, we will remove the “Winterfest 2016” special account 82157476af
